### ADDENDUM #1

#### INVITATION FOR BID #10-22

#### UST REMOVAL AT CRAFTS ST. GARAGE

THIS ADDENDUM IS TO: 1. Provide a list of attendees at the **MANDATORY** Pre-bid.  
2. Answer the following Question

Rob Fratus - EQ Northeast
Robert Douglas - Petroleum Management Services
Kevin Johnson - EST Associates, Inc.
Richard Hadley - TMC Services
Richard Wojklowski - Dixon Inc.
Richard Vovesteo - United Industrial Services
Andrew Sciaba - Northern Contracting Corp.
Chris Capullo - Corporate Environmental Advisors, Inc.
James Zenone - Grove Construction, Inc.
Levy Perez - Commonwealth Tank Inc.
Walter Connors - MECO Environmental

Q1. Will the product be taken out of the tank, if so, what percentage will be taken out?

**A1. Most of the product will be taken out of the tanks prior to the start of the work. Five inches or less of product will remain in the tanks.**

Q2. If contaminated soil is found, will there be a location designated onsite for the soil?

**A2. Contaminated soil, if encountered, will be stockpiled in a designated location to the rear of the DPW yard. The winner of the contract will verify this location with the City prior to the start of work.**

Q3. We had attended the Mandatory Pre-Bid Conference on 10/29/09 at 10am. We were not specified about the installation of the New Fuel Dispensing Island or it's scope of materials. I do see a call out for just the, "New Fuel Dispensing Island" and need to know if this is going to be included in this project. Or if this project is strictly the removal and nothing more of the "Current Fuel Dispensing Island".

**A3. It is for removal only. Plan shows site of proposed fuel island to be installed under a separate contract. The installation of the new fueling facility will be performed under a separate request and is not included in the work.**

All other terms and conditions of this bid remain unchanged

**PLEASE ENSURE THAT YOU ACKNOWLEDGE THIS ADDENDUM ON YOUR BID FORM**

Thank you.
